

Emergency School Closure

If for any reason there is a likelihood of the school being closed (for example if large amounts of snow have fallen over night) parents and carers should listen for announcements on local radio stations, and visit the school and/or Worcestershire County Council Website.

The school operates a text messaging system that allows us to send up to date emergency information directly to your mobile phone. We may use this in the event of school closure (especially one that is actioned during the school day).

If for any reason school needs to be closed after the pupils have arrived at school, all parents/carers will be contacted. It is most important therefore that the school office has current and correct home and mobile phone numbers as well as alternative emergency numbers so that parents and carers can be contacted urgently. **PLEASE INFORM US OF ANY CHANGES TO TELEPHONE NUMBERS OR EMAIL ADDRESSES IMMEDIATELY.**
