

Vale of Evesham School

'a specialist school for cognition and learning - enabling inclusion in the community'

Community Links

The Residential Provision is supported by community links and activities that promote the youngsters been part of their local area. Restaurants, local cinemas, parks are just a few of the local amenities the young people access. We also have links with the Rotarians, Pet's for Therapy and local artists that will come and celebrate different festivals and themes the residential team put on or be part of the school in some way as a link.

The provision is keen to invite parents and cares in and for the young people to celebrate some of the Residential leisure time with their families. There is also a variety of talks given by specialists to the parent and carers and these take place each term in the evenings.

Throughout the year we have celebrations for the whole of the provision that mark the wonderful festivals from other cultures that take place. Local artists are also invited to do workshops with the young people, including the 'Fire Service' demonstration which was very popular.

We are very proud of our young people and want to involve them as much as possible with the local community.

Ruth Barton(Assistant Head)
