

Accreditation at KS4

Accreditation Routes

For core subjects students generally follow one of two accreditation routes –

- Entry Level qualifications at E1/2/3 or BTEC qualifications in English, Maths, Science + other subjects depending on student interest and accessibility.
- ASDAN Personal Progress Qualification – a multi-disciplinary route focusing on relevance and accessibility, which is accredited at Entry Level 1.

The decision about which route is followed is based on student levels in the subjects concerned, student literacy and numeracy levels and a judgement about how relevant and accessible the student will find the course. Some students may follow both routes for a period if their learning profile is spiky.

Results at the end of Key Stage 4
