Wychavon

EVENT NAME

Using JED to support 6<sup>th</sup> Form Accreditation

NUMBERS ATTENDED

10

WRITE UP

Most 6<sup>th</sup> Form students are working towards OCR Life and Living Skills accreditation which includes several units relating to workplace learning. The unit N09 Preparing for work asks the students to “Identify a suitable job role which interests them”. The students used the JED database to answer a set of questions about their career options.

This formed the starting point for a virtual job search using local job search sites, analyzing job opportunities and filling in a mock application form.

Most students found it a really challenging and useful process, particularly in exploring the distinction between “dream jobs” and “realistic short term job goals”.
